Education

- July,2019– **PhD, Electrical Engineering**, *Indian Institute of Technology, Madras*, Chennai, India.
present -Thesis: "Plannar Plasmonic Mtsurfaces for Phase Manipulations."
Advisor: Dr. Ananth Krishnan, GPA: **9.43/10**.
- Aug,2017– **M.Tech. in Optics & Optoelectronics**, *University of Calcutta*, Kolkata, India.
July,2019 : -Thesis: "Studies On The Optical Characteristics Of 1-D Metal-Dielectric Photonic Band Gap Material."
Advisor: Prof. Rajib Chakraborty, % of Marks: **82.62/100**.
- Aug,2009– **B.Tech. in Electronics & Instrumentation Engineering**, *West Bengal University Of Technology*,
July,2013 : Kolkata, India.
GPA: **8.79/10**

Publications

Journal Articles

- 2025 Anil Ringne, **Subrata Karmakar**, and Ananth Krishnan. On-axis structured beams generation via moiré and mie resonant metallo-dielectric moiré gratings. *Scientific Reports, Nature*, volume 15, page 16544, May 2025.
- 2024 **Subrata Karmakar**, Anil Ringne, Nirjhar Kumar, and Ananth Krishnan. Uniform dipole resonance and suppressed quadrupole resonance for constant transmittivity full phase control plasmonic metasurfaces. *Scientific Reports, Nature*, volume 14, page 31499, Dec 2024.
- 2024 A. Ringne, N. Kumar, **Subrata Karmakar**, P. Pushkar, and A. Krishnan. Generation of complex beams using flattening of binary gratings. *J. Opt. Soc. Am. B*, volume 41, pages 1364–1372. Optica Publishing Group, May 2024.

Conference Proceedings

- 2018 **Subrata Karmakar**, Rajorshi Bandyopadhyay, and Rajib Chakraborty. Dual tunable multicavity resonator based photonic bandgap structure as hybrid optical filter. In *OSI-International Symposium on Optics(OSI-ISO 2018)*, IIT Kanpur. OSI-International Symposium on Optics(OSI-ISO 2018), 2018.

Industrial Experience

- Aug,2013– **Position: Team Leader, Field Engineer**, *Honeywell Automation India Ltd.(Infosoft Digital Design & Services Pvt. Ltd.)*, New Delhi, India.
June,2017 -Project: "Information Technology Based Building Management System(IT-BMS)",the First of its kind in India, where 24 third party systems are being integrated in one single interface through different protocols such as BACnet, Modbus.

Skills

Experimental

Fabrication: Electron beam lithography system (Raith), electron beam evaporation (Hind), RF sputtering, wet-bench operations, lift-off.

Characterization: Microscopy (Bright-field, Dark-field, Fluorescence, Polarization, Confocal), 3D non contact profilometer (Bruker), spectroscopic ellipsometer (Woollam).

Free-space optics: Spatial light modulator (PLUTO-2-VIS-016), spectrometry.

Computational

Electromagnetic simulation: Ansys Lumerical FDTD, Ansys Lumerical mode solver, DDSCAT.

Programming languages: Python, Matlab, Octave.

Fellowships & Awards

- Aug,2019 Awarded the Half-Time Research Assistantship (HTRA) for Ph.D. research at IIT Madras, funded by the Ministry of Education (MoE), Government of India.
- May,2019 University topper in M.Tech. in Optics & Optoelectronics at University of Calcutta, Kolkata, India

Major Teaching Assistantships

National Programme on Technology Enhanced Learning, by the Ministry of Education (MoE), Government of India: Transmission lines and electromagnetic waves, Introduction to Photonics, Optical Fiber Sensors.

IIT Madras course curriculum: Wave Propagation in Communication, Optical Fiber Sensors, Fiber Optic Communication Technology,

Course Work

Introduction to Photonics, VLSI Technology, Wave Propagation in Communication, Advanced Photonics Laboratory, Integrated Optoelectronics Devices and Circuits, Devices and technologies for AI and neuromorphic computing, Optical Engineering, Optical Sensors.

Position Held

- 2022–2024 I was the official Treasurer of the IIT Madras Student Chapter of OPTICA.
